Scenes at the Bedside During the Last Hours of Jefferson Davis.

His End a Peaceful One, and His Last Words Spoken to His

Tokens of Sorrow Displayed By His Old Admirers Comments of Press and People on His Life.

New Orleans, Dec. 6.—The scene at Jef. ferson Davis' bedside last night was a most touching one. Early in the evening Mr. touching one. Early in the evening arr.
Davis was seized with a congestive chill, which seemed to crush vitality out of his already enfeebled body. So weak was he that the violence of the assault soon subsided for the lack of vitality upon which to prey. From that time to the moment of bis death the history of his case was that his death the history of his case was that of gradual sinking. At 7 o'clock Mrs. Davis administered some medicine, but the expresident declined to receive the whole dose, and waving her aside with a gentle gesture he whispered "Pray, excuse me." These were his last words. Gradually he grew weaker and weaker, but never for an instant seemed to lose conscionsness. Lying peacefully upon his bed, and without a James Gazette doubts whether Davis will trace of pain in his face, he remained for take a historical position as one of the hours, silently clasping and tenderly world's great men. From the moment of the dread assault of congestive chill, those gathered about the bedside, who have been watching and noting with painful interest every change and symptom for the past month, knew well that the dread ger was at the door. About 10:30 o'clock Associate Justice Fenner went to the French opera house to call to Mr. Davis' Stamps. As soon as the message reached them they hurried to the bedside of the dying ex-president. By 11:30 o'clock there were assembled in the death chamber Mrs. Davis, Drs. Chaills and Bickham. Associate Justice and Mrs. Fenner, Miss Nannie Smith, grandniece of the dying man, and Mr. and Mrs. E. Finding that Mr. Davis was breathing somewhat heavily as he lay upon his back, the doctors assisted him to turn upon his right side. With his cheek resting upon his right hand, he lay for some fifteen minutes, breathing softly but faintly. More and more feeble became his respirations, till they passed into silence, and then the watchers knew that the silver cord had been loosed, and the father of the general server was dead.

blow fell with crushing force upon the af-flicted widow. As long as there had been work for either head or hands, she had borne up bravely, and not until the uses for her tender ministrations were lost did she seem to realize the terrible force of the blow that had fallen upon her. Knowing of a predisposition to heart affection, the dectors were at once gravely alarmed for her. They promptly administered a composing draught, and at a late hour this morning

she was resting quietly.

It is believed the foundation of Mr. Davis' last illness was malaria, complicated with acute bronchitis. Careful nursing and skilled medical attention had mastered the latter, but it is supposed the congestive chill, which was the immediate cause of death, was attributable to the return of After death the face of the deceased, though looking slightly emaciated, showed no trace of suffering, more nearly that of a peaceful sleeper than

# "Electricity Instead of Sand."

A series of experiments with a new electrical appliance for increasing the tractive power of locomotive engines has just been successfully concluded by Elias E. Ries of Baltimore, on the Philadelphia & Reading railroad. The trials were made on the Frackville grade, one of the steepest on the Reading system, and were pronounced eminently satisfactory in every respect. The apparatus consists of a small dynamo and engine mounted upon the locomotive and furnishing an electrical current, which is passed forward to the rear driving wheels, through that portion of the track rails lying between them. The passage of the current into the wheels and back causes an increased riction between the wheels and the rails which is claimed to be far superior to that obtained by sanding the tracks, and enables the locomotive to draw a much beavier train, without regard to the condition of the track, than is at present possible. The Frackville grade averages 185 feet to the mile, and with the dynamo running and a train of forty-five cars attached to the locomotive the ascent was made in twenty eight ninutes, while without the current over the same ground, with the same train behind, required fifty-five minutes. The current used is what is termed a low-tension current, and the increased traction obtained is under complete control by the engineer.

#### Making Places for Senators.

The senate caucus committee is working diligently to find places on the committees for the new state senators. Meetings are held every day, and the committee finds it difficult to get the old senators to give way, especially on any of the important commites. To-day a way was found to fix one of the South Dakota senators. A new standing committee was created, that of Indian depredations, and Senator Moody was made chairman. Senator Mitchell made the motion and Senator Dawes, chairman of the Indian committee, agreed to it, saying that this would relieve his committee of a great deal of labor. Senators may be taken from other committees to fill out the Indian depredation committee, leaving vacancies for the new senators. It is understood that places will be made on the following committees tees of the union and Northern Alliance, and with the representatives of the Knights of Labor. The result is a confederation of will be made on the following committees for the senators now here: Commerce, appropriations, foreign relations, naval affairs, public buildings and grounds, coast defenses, District of Columbia, postoffices and post roads. Leedom has made a rather searching examination of the books, and places the amount of the defalcation at \$71,800.

Leedom's examination was confined to an investigatioe of the manner in which business was transacted in his office in its various ramifications with the treasury, national banks and representatives. J. W. Whelp-ley, assistant United States treasurer, testi-fied as to the mode in which the drafts of the sergeant-at-arms are presented and paid at the department. After hearing Whelp ley's statement the committee made an investigation into the legal aspect of the case which resulted most uneatisfactorilt to members whose salaries are in arrears. Although the matter is still question, it appears as a result of the inquiry thus far, that the responsibility for the loss cannot be located. Altogethe the situation is distressing to those mem hers who at first had no doubt that they would promptly recover their missing

Having exhausted the knowledge of treasury officers, the committee went to the office of the sergeant-at-arms and began an examination of a formidable array of books and accounts. CHICAGO, Dec. 6 .- Hynes resumed his argument in behalf of the prosecution in the Cronin trial this morning, devoting his remarks especially to showing Beggs as a defender of the triangle and, therefore, ready to think ill of Cronin.

ready to think ill of Cronin.

Hynes dwelt on the scene In the Carlson cottage, and continued: "Gentlemen of the jury, this savagery and brutality is palmed off on you as patriotism. Many and many a hot Irish act has brought calamity, suffering and shame to the face of the Irish people, but in all the history of the past and in all the history of the past and in all the history of the past and in all the history of the future, this will stand out as the one conspicuous monument of shame against the Irish people, and upon the reputation and character of the honorable generosity of the race." Hynes graphically pictured the finding of the corpse, and said the finding upon it of the Agnus Dei, an emblem of his faith and religion, indicates one thing—that the men who killed Cronin had the same faith, for they wear the same emblem faith and reigion, indicates one thing—that the men who killed Cronin had the same faith, for they wear the same emblem they found around the neck of the man they murdered. After vividly describing the supposed actions of the murderers after disposing of the body, Hyines scored O'Sullivan and wondered whether when he went to bed at night, did that ghastly picture of his dead friend, headforemost in the sewer, his head beaten and battered with the blows that struck his life out ever haunt him; did the horror of that scene ever stir his soul to one moment of repentance. Speaking of Burke's flight, Hynes referred to his "triangle of alisses in honor of the triangle whom he was serving." He then denounced the war on the defenseless men and women in Great Britain, charged upon the triangle, and the sending of dupes to English prisons. At the afternoon session Mr. Forrest addressed the jury on behalf of Beggs. He denounced the murder of Cronin, as the most atrocious and cold-blooded ever perpetrated, but warned them not to let an innocent man suffer for it. Alluding to the large force and power of the states-attorney's office, Mr. Forrest said that not satisfied with the ability of the states-attorney's office, Mr. Forrest said that not satisfied with the ability of the states-attorney and his associates, those interested in the prosecution must engage three or four of the most able counsel in Chicago, men whose ability to sway juries by their eloquence is well known to assist them in this case. Forrest said he had an unpleasant duty to perform, because of certain expressions of his client, during Cronin's life. "The man who supposed that Cronin, while here upon earth, was an angel in disgnise, is very much mistaken," said he. Whether are not

posed that Cronin, while here upon carth, was an angel in disguise, is very much mistaken," said he. Whether or not the Clan-na-Gael is an evil organization, whose purpose was to send dynamite to England, the most active member in fur-thering the object of that society, whatever thering the object of that society, whatever it was, was Cronin. The states attorney ob-jected to this, and said he wanted to prove Cronin was expelled because he exposed the dynamite policy, and was opposing it at cronin was expelled because he exposed the dynamite policy, and was opposing it at the time the circular was issued. Forrest then spoke of Beggs' open actions, the furnishing of the correspondence, of Spelman to the state, etc. It was in evidence that Beggs said Cronin had no business to that Beggs said Cronin had no business to be on the committee to try the triangle. If this was true, then Cronin was predjudiced against Alexander Sullivan, who had caused his expulsion from the order. Cronin was this was true, then Cronin was predjudiced against Alexander Sullivan, who had caused his expulsion from the order. Cronin was an agitator, the organizer of rival camps and had publicly denounced the triangle. Yet he was selected to act in the triple capacity of witness, counsel and judge to try that body. Forrest had not concluded when court adjourned.

# Divorce Case.

DALLAS, Tex., Dec. 6 .- While a divorce case was being heard in the district court today, an altercation arose between the lawyers and the people interested in the case, and a shooting resulted. Lawyer A. H. Pope was killed, and W. H. Pope and James Turner slightly wounded. The shooting was done by Dick Weathersby and his brother in-law, Keller. Both were jailed. W. H. Pope had charged Keller with W. H. Pope had charged Keller with practicing fraud. Keller said it was false, and Pope struck him with his cane. Keller and Weathersby both drew their revolvers and fired. W. H. Pope and Turner only received slight flesh wounds. Keller claims both Popes were advancing on him and that he fired in self-defense. Weathersby says he thought Keller would be killed. Alexander Pope and W. H. Pope, were both brilliant lawyers, and members of the legis lature. Keller is ex-judge of this county, but now edits a paper at San Angelo, Turner is a local lawyer of some prominence.
